

Senior Microbiologist

Nanosonics Limited is a publically listed ASX200 Australian medical device company. We develop, manufacture and commercialise innovative and unique medical device disinfection solutions for global markets.

Our Company's mission is to improve the safety of patients, clinics, their staff and the environment by transforming the way infection prevention practices are understood by introducing innovative technologies that deliver improved standards of care.

Due to the continuous growth of our business we are currently looking for an enthusiastic Senior Microbiologist. As a part of our Clinical Affairs team you'll conduct microbiological research, including developing and validating new protocols, troubleshooting and analysis.

Major responsibilities:

- Plan experiments and testing based on sound scientific analysis and expert knowledge of microbiological techniques
- Document experiments & tests according to standard laboratory procedures
- Analyse, interpret and present microbiological data
- Ensure that test data and documentation (lab books, reports etc) is maintained in accordance with Nanosonics' Quality requirements, ISO13485, and GLP requirements where appropriate
- Ensure work is carried out appropriately under Quality Management System policies and procedures
- Adhere to appropriate Workplace, Health and Safety policies and procedures
- Assist in procurement, operation & maintenance of laboratory equipment

To qualify for this role you will need to have:

- Minimum bachelor degree in microbiology, masters or PhD preferred
- Minimum of 2 years' experience in a similar role
- Excellent verbal and written communication skills are imperative
- Experience in a regulated environment is preferred
- Motivation for continuous improvement for all operational processes
- Excellent planning and organisation skills

To submit your application, please apply online via SEEK until 7.01.2019:
